Couples worldwide are choosing Natural Family Planning for its healthful and marriage building qualities, as well as its usefulness to plan or postpone pregnancy. A prime concern for many is the use of a moral method to plan a family. NFP is morally acceptable and has been proven to be 99% effective in postponing pregnancy. NFP has also assisted many couples in achieving pregnancy – even if the couple has had difficulty in the past.

The NFP course, which consists of four classes spaced a month apart, is taught by professionally trained volunteer couples.
